<b>Name of the Activity</b>	SAVE SOIL MOVEMENT-SADHGURU VISITS TO MAHARASHTRA	
<b>Type of Activity</b>	Awareness campaign	
<b>Date and Time of Activity</b>	16/06/2022	--
<b>Details of Participants</b>	<b>Students and Faculty</b>	
<b>Coordinator(s)</b>	Miss. Jyoti Laxminarayan Agrawal	
<b>Organizing Dept./Support System</b>	NSS department	
<b>In collaboration with</b>	NSS UNIT	
<b>Description</b>	<p>Save Soil is a global movement launched by Indian spiritual leader Sadhguru to address land degradation and advocate for healthy soil. The initiative was presented on 5 April at the United Nations in Geneva by the Isha Foundation and supported by the WHO, UN SDG lab, and IUCN.</p> <p>The Isha Foundation, an IUCN Member, launched the 'Journey to Save Soil' in London on 21 March, setting its founder Sadhguru off on a 100-day motorcycle journey through 26 countries to raise awareness about soil degradation and advocate for bringing organic matter back to agricultural processes.</p> <p>Soil degradation is the physical, chemical and biological decline of soil quality. Caused by unabated deforestation and urbanization, industrial pollution, overgrazing, and unsustainable agricultural practices, half of the world's soil is already degraded. This loss threatens food quality and supply, water security and biodiversity, increases carbon emissions and climate related risks, and can lead to loss of livelihoods, conflict and migration. A change in farming practices has never been more urgent.</p> <p>As a part of this campaign College Of Management Khamgaon students and staff also participated in the movement and Sadhguru's visit and planted few trees</p>

<b>Description</b>	<p>Most plastics we use today continue to be made from fossil fuels in a process that contributes to increased greenhouse gas emissions from their production, their use, through to their disposal. Recycling rates also remain low and plastics continue to pose a threat to our environment, through littering, improper waste management, and the wear and tear of products contributing to micro plastic contamination in the environment. Plastics, including their chemical additives, can stay in nature for many years and potentially enter the food chain. In the wake of growing public demand, a number of manufacturers have introduced plastics that are considered bio-based, compostable or biodegradable. However, the market share for these types of plastics is only about 1 %.</p> <p>Biodegradable and compostable plastics are supposed to reduce the pollution problem posed by plastics, however, they still need to be correctly disposed of, an important point often not well understood by consumers, the EEA briefing says. For example, biodegradable and compostable materials can be broken down by microorganisms into water, carbon dioxide, mineral salts and new biomass within a defined period of As a part of this campaign College Of Management Khamgaon students and staff also participated in the Hatta and created awareness about the bags and how these bags are safe to environment and threats posed by using plastic bags</p>

<b>Name of the Activity</b>	Tree plantation at College Campus	
<b>Type of Activity</b>	Environment Promotional Activity	
<b>Date and Time of Activity</b>	23/07/2022	2:00 pm to 4:00pm
<b>Details of Participants</b>	Students and Faculty	
<b>Coordinator(s)</b>	Miss. Jyoti Laxminarayan Agrawal	
<b>Organizing Dept./Support System</b>	NSS department	
<b>In collaboration with</b>	NSS UNIT	
<b>Description</b>	<p>Our college arranged tree planting initiative to raise public awareness about climate change and its negative effects on us. The principal of our institution was the guest of honor for this tree planting programme, which began at 2:00 in the afternoon. A range of 200 plants were planted in the school garden and periphery of the college playground to create awareness about saving trees. Students planted many saplings and it contains medicinal properties. The program ended at 4:00 p.m. the students pledged to plant as many trees as possible near our areas so as to create a very healthy environment and contribute in minimizing the climatic changes. We hope that everyone will plant a tree at least once in their lifetime to help preserve the environment.</p>
